

The background features a series of concentric, wavy blue lines that create a sense of depth and movement, resembling a stylized landscape or a series of overlapping planes. A prominent white circle is positioned in the lower right quadrant, partially overlapping the text.

Eni Company Profile

COMPANY MISSION

We are an energy company. We concretely support a just energy transition, with the objective of preserving our planet and promoting an efficient and sustainable access to energy for all.

Our work is based on passion and innovation, on our unique strengths and skills, on the equal dignity of each person, recognizing diversity as a key value for human development, on the responsibility, integrity and transparency of our actions.

We believe in the value of long term partnerships with the countries and communities where we operate, bringing long-lasting prosperity for all.

THE GLOBAL GOALS

COMPANY PROFILE

Eni is an integrated energy company with over

30.000 employees in 69 countries around the world.

The Company launched a new strategy in 2020, which it accelerated in subsequent years, with the aim of achieving the target of **zero net emissions by 2050** and providing a variety of fully decarbonised products, combining environmental and financial sustainability, with a strong focus on technological leadership built on years of research and innovation.

The recent integration of **renewables, retail and electric mobility in Plenitude** and creation of an entity dedicated to sustainable mobility in the near future, with the integration of biorefineries, service stations and ride sharing activities, are some of the main levers that will be engaged in the decarbonisation process.

The listings of **Vår Energi and Energy One and establishment of Azule, a joint venture with BP in Angola** have also supported the acceleration in the transition. In addition to new business models, Eni's strategy is based on synergy with its stakeholders and developing proprietary technologies and breakthroughs in response to the challenge of decarbonisation.

Eni aims to contribute to the **achievement of the United Nations 2030 Agenda of Sustainable Development Goals (SDGs)**, supporting a just energy transition, which responds to the challenge of climate change with practical and economically sustainable solutions, promoting efficient and sustainable access to energy resources for all.

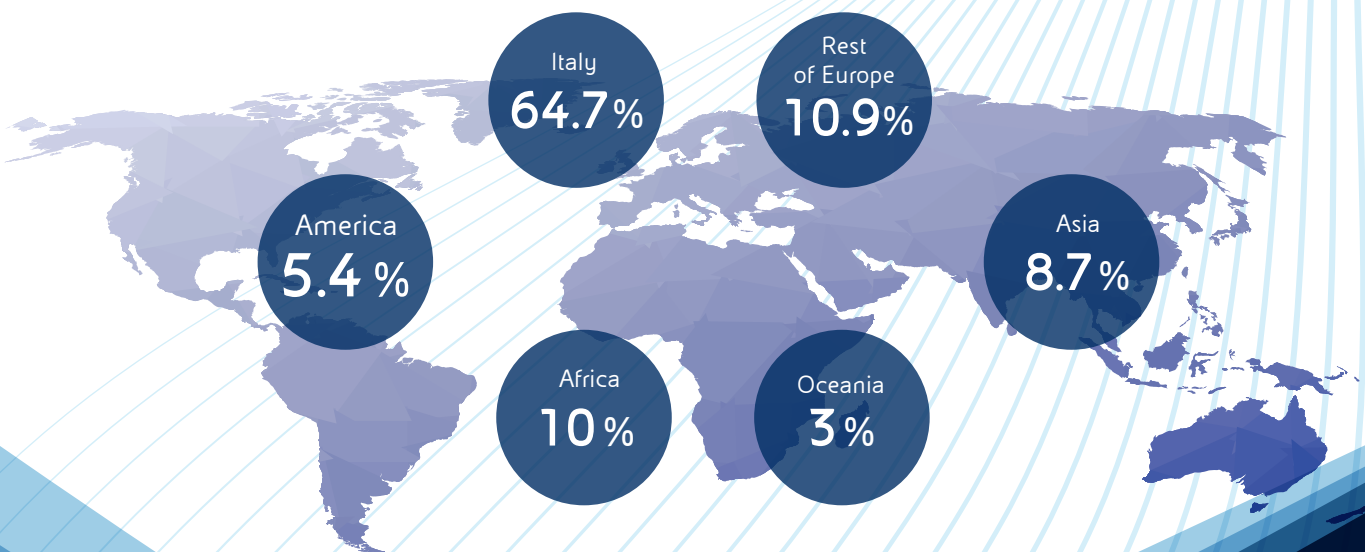

GLOBAL PRESENCE

With its presence throughout the world, Eni meets the short and long-term **challenges facing the energy sector**. Thanks to its consolidated alliances with producer countries, Eni contributes to an increasing diversity of supply sources, working in close synergy with local partners and institutions, and offering its customers a wide range **of energy products and services that are increasingly sustainable**.
